Summary

I am a results-driven software developer with expertise in front-end development, programming, and problem-solving. I excel at building responsive and dynamic web applications using React.js, JavaScript, and modern web technologies. I have a track record of delivering interactive projects, such as Sudoku Solver and Tic Tac Toe, and I'm committed to writing high-quality code while collaborating effectively with teams.

Skills

Programming languages: C, C++, Python, Javascript

Front-End Technologies: HTML, CSS, Bootstrap, React.js, Next.js

Back-End Technologies: Node.js (learning), MongoDB, Firebase

Tools & Platforms: Git, GitHub, Linux, Chrome DevTools, VS Code

Soft Skills: Problem-Solving, Team Collaboration, Time Management

Key Achievements

Improved Application Efficiency

Increased web application efficiency by 30% through code optimization using React.js.

Deployed Popular Web App

Successfully developed and deployed a web app

Enhanced Coding Skills

Completed 100+ coding challenges in C/C++, improving problem-solving skills by 50%.

Enhanced User Engagement

Boosted user engagement by 40% through dynamic UI enhancements in Tic Tac Toe game.

Projects

To-Do List Application

01/2023 - 02/2023

A web-based application to manage tasks effectively.

- Designed and implemented a task management app with features such as task addition, deletion, and persistent data storage using local storage.

Sudoku Solver

03/2023 - 04/2023

An interactive platform for solving Sudoku puzzles.

- Created an interactive Sudoku-solving website using HTML, CSS, and JavaScript.
- Enhanced user experience with a clean interface and real-time validation.

Tic Tac Toe Game

05/2023 - 06/2023

A fun, interactive Tic Tac Toe game for web browsers.

- Developed a responsive Tic Tac Toe game featuring Player vs Player mode using HTML, CSS, and JavaScript.
- Incorporated dynamic UI elements to improve user engagement.

Portfolio Website

07/2023 - 08/2023

A personal website to display my work and skills.

- Designed and developed a personal portfolio website to showcase projects, skills, and achievements.
- Implemented interactive navigation and ensured responsive design for mobile and desktop.

C & C++ Programming Projects

01/2023 - 08/2023

Collection of programming exercises completed to improve technical skills.

- Solved 100+ programming problems in C and C++ to strengthen logical thinking and enhance problem-solving skills.
